We can scan large quantities of your 35mm or APS negatives and digitize them. This is for 35mm strips and APS rolls only. We scan your negatives at 1800dpi and they will be burned to a archival disc in JPEG format (Additional copies of the disc are extra). The pricing is by the negative strips. More than likely, a majority of your 35mm film are in plastic sleeves and cut into "strips" of 4 or 5 frames. APS rolls were never cut so the entire roll is counted as one strip. Single 35mm negative frames are not included in this shoebox scanning pricing. There is additional scanning charges for individually cut 35mm negative frames.

1 Please checkmark the type of film you are sending us below and write the quantity.
-For 35mm and APS film: Quantity is by the strip/cartridge.

35mm APS
